N°16: Patrice Detilleux (1993-2002) (Helmet grey HGU-55/P)

For N°18, the smaller decals go on each side of the helmet

For N°15, on the back of the Rorive helmet.

For MT30 the blue colour was FS595-25102. MT14 and 36 were a darker blue, code presently unknown. RAL5002 is a close match.

The other colours are FS595-27178 (Aluminium), FS595-11105 (Red), and FS595-13538 (yellow).

When making a model always check photo references. Many images of these can be found online.

BELGIAN FOUGA SOLO DISPLAY PAINT SCHEME

The arrow on the bottom fuselage starts just before the nose, and ends just before the tailskid.

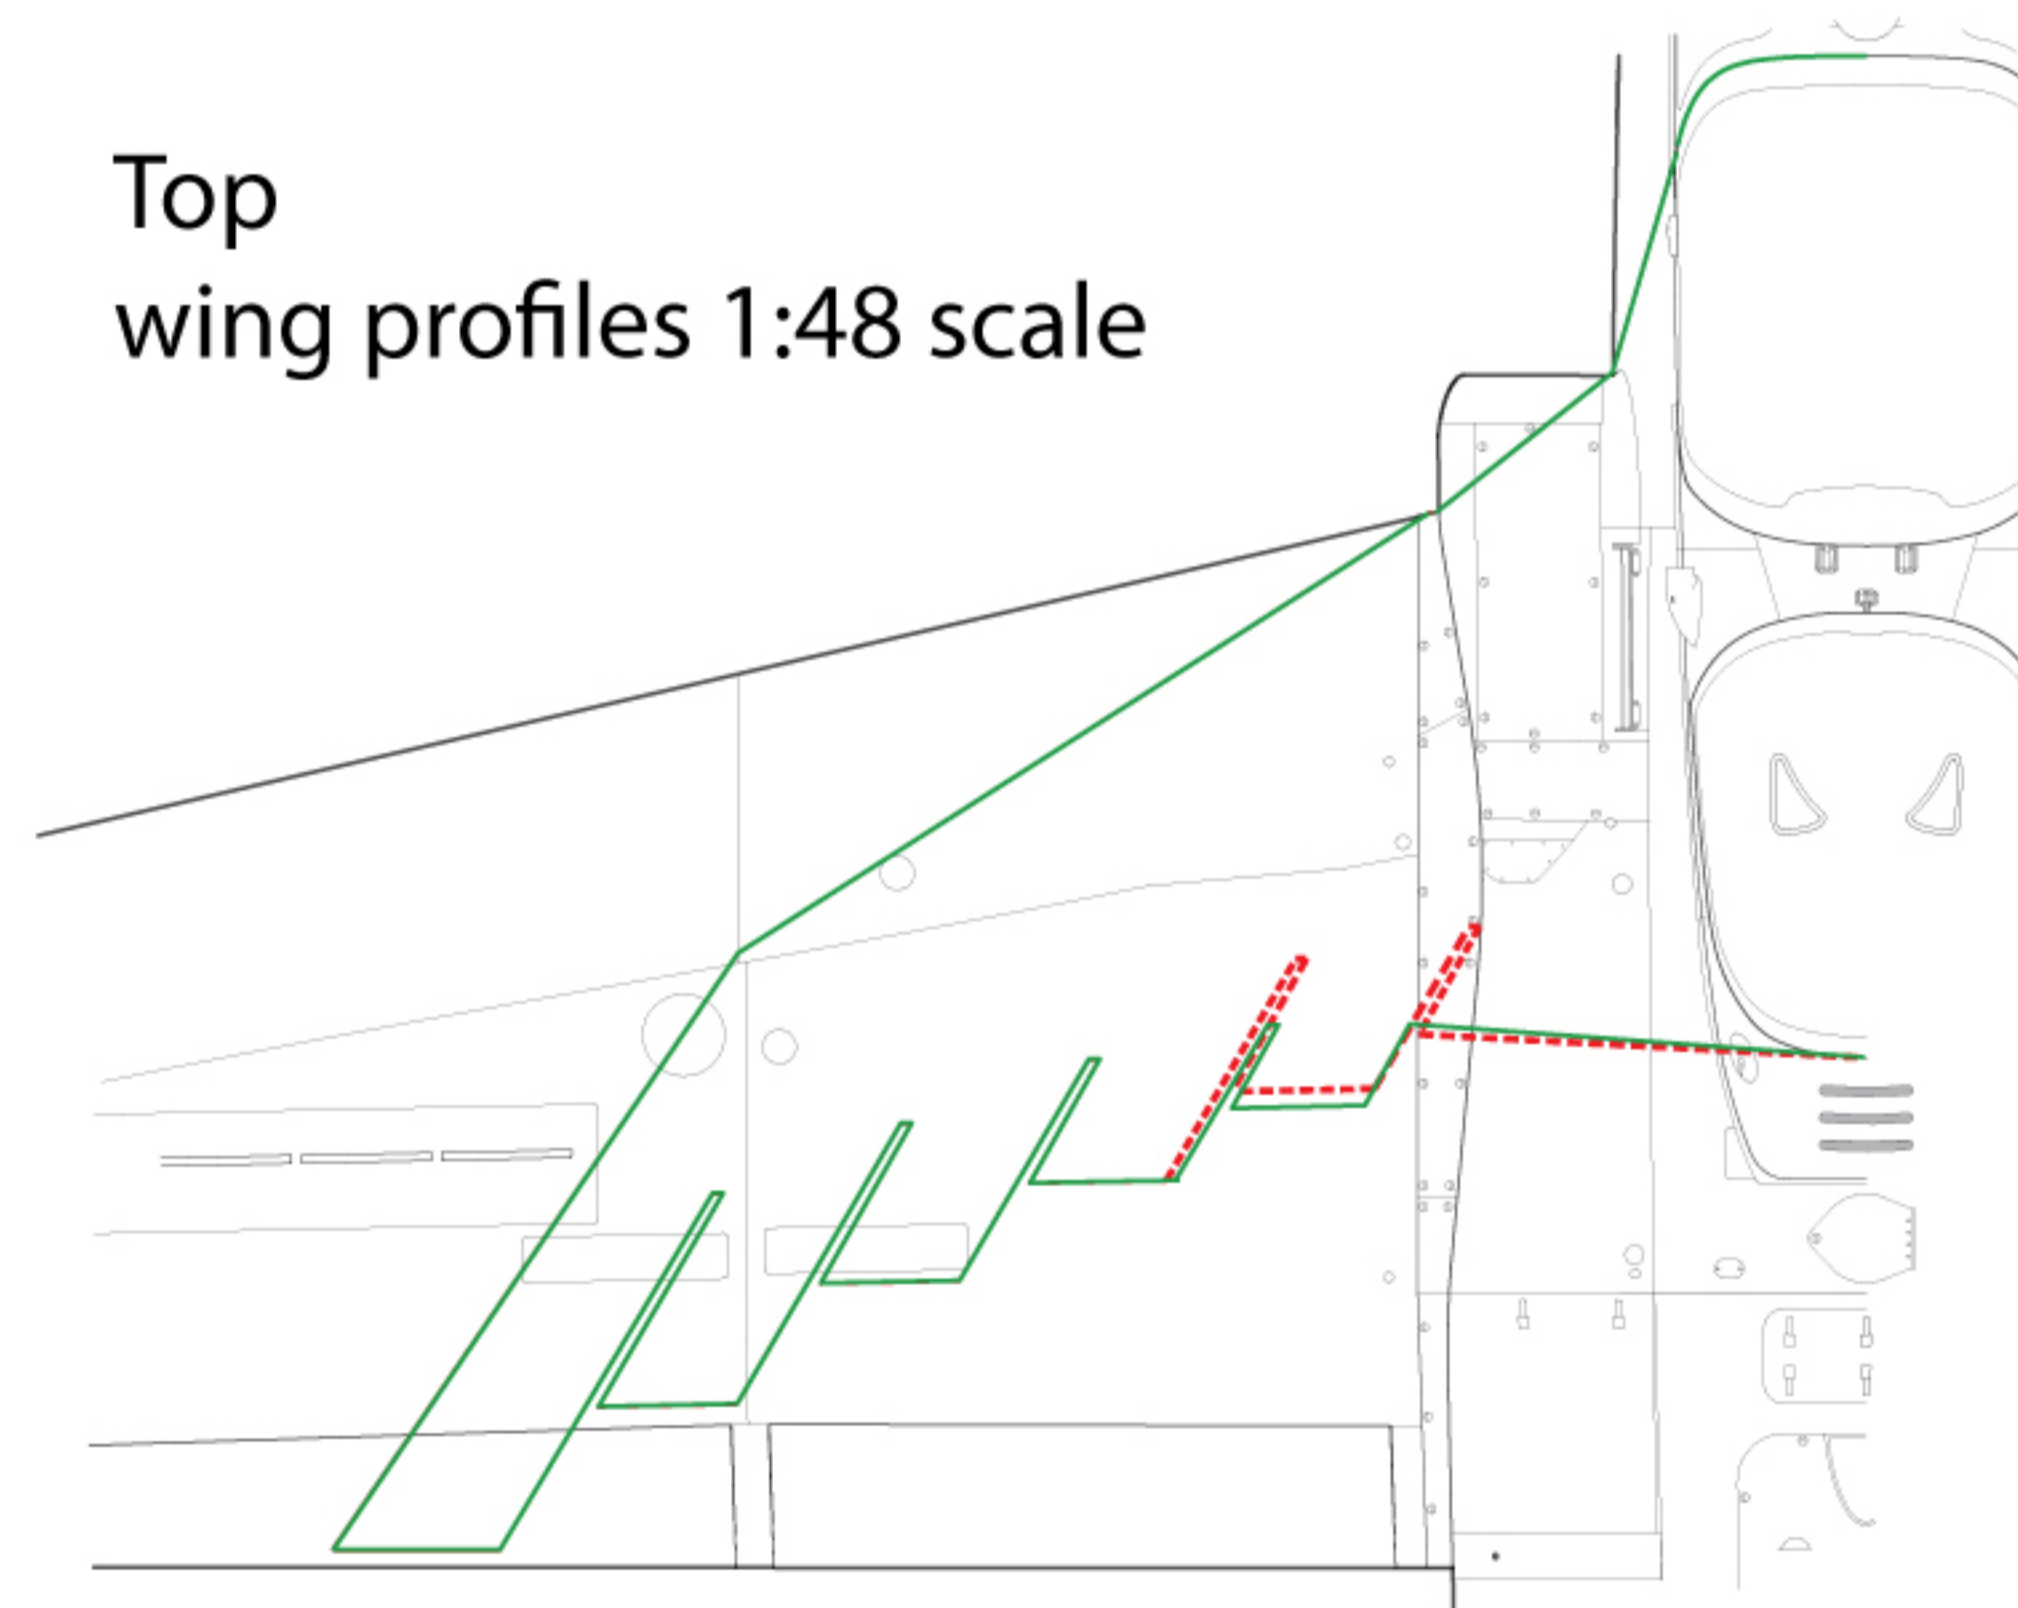

On the MT14 paint scheme there is an interruption between the white wing and the red arrow on the underside.

On the others there is none.

None of the aircraft were the same. 14 and 36 had an extra "feather" near the wingroot
